Work experience

- 1 Jun 2011–
present **Research Engineer, National University of Singapore**
Currently working on two multidisciplinary projects, one involving wetland conservation and the other involving river restoration. I am developing expertise in groundwater and streamflow modeling, eco-friendly hydraulic design, and hydrological fieldwork techniques.
- 10 May 2010–
31 Jul 2010 **Engineer Intern, Engineers 9000 Pte Ltd, Singapore**
Designed a small concrete bridge with steel guardrails. Verified changes to drawings and calculations for industrial structures, checking for structural stability and adequacy. Reported discrepancies to supervising engineer and recommended modifications. Gained experience in detailing reinforced concrete members and designing steel connections. Gained basic understanding about document submission procedures to regulatory authorities for civil and structural works.
- 10 May 2007–
18 Jul 2007 **Waterpark Lifeguard, Kings Dominion, Virginia, USA**
Experienced working in a multicultural environment in the USA, as part of a work and travel programme. Worked hand in hand with the local Americans and other foreigners

from Asia, Eastern Europe and South America. Was awarded “Guard of the Week”.

- 31 Aug 2004–
15 Mar 2006 **Section Commander, 5th Singapore Infantry Regiment, Singapore Armed Forces**
Lead and ensured the operational readiness and welfare of a 7-person combat section. Understood what it takes to train, lead and manage teams under difficult and stressful situations. Understood what it takes to gain the respect of one’s superiors and subordinates at the same time.

Hobbies and interests

- 2009–present **Urban Farming, Gardening and Permaculture**
Assisted a local NGO—Ground Up Initiative—in setting up a rooftop garden concept model. Volunteered at local farms and community gardens, and attended courses in Permaculture design. Learnt critical observation skills and patience, and experienced working with nature.
- 2007–present **Libre and Open Source Software**
Great interest and considerable experience with libre and open source software such as Linux (operating system), GNUMCash (finance), GIMP (image editing), and FreeMind (mind mapping). Opened my mind towards exploring alternatives and adapting them to my workflows to improve productivity.

Skills

- 2008–present **Technical Document Typesetting**
Skilled at typesetting professional looking technical documents, particularly those that are long and complex, and contain several equations, tables, figures and cross-references. Cultivated an appreciation of aesthetics and a large degree of meticulousness for work that requires it.

Productivity Software

- Excellent Microsoft Office, OpenOffice, Internet and Email applications
Good Linux—operating system
Good GNUMCash—finance
Good Vim—text editing
Good IkiWiki—website creation
Good GIMP—image editing
Good LaTeX—technical writing and typesetting
Fair Bazaar—document version control

Engineering Software

- Excellent COMSOL Multiphysics—multiphysics modeling
Fair Plaxis and SIGMA/W—geotechnical modeling
Good SIDRA—transportation and traffic modeling
Good USFOS—offshore structural modeling

Good BEAMD—beam design
Fair STAAD.Pro—structural design
Good AutoCAD and QCAD—drafting
Good Primavera—project management
Good GRASS GIS, ArcGIS and TNTmips—geographical information systems and remote sensing

Languages

Excellent English
Excellent Tamil
