Overview

I intend to take leave of absence for 2006 / 2007 Sem 2 to focus on a personal experiment in self-directed learning. I will not be accelerating my course in subsequent semesters and will be reading an average of 20 Modular Credits per semester. Thus, I will be taking a total of 9 semesters to complete my B. Eng. Degree.

My pursuits in other self-directed learning will occur simultaneously. I will be attempting to make my B. Eng. course and my other self-directed learning projects complement one another as much as possible.

Summary

Length of Study : 9 semesters (including leave of absence)
Leave of Absence: 1 semester (2006 / 2007 Sem 2)

Details

2006 / 2007 Sem 1

Read 19 modular credits

2006 / 2007 Sem 2

Leave of absence

2007 / 2008 Sem 1

I intend to read 19 modular credits

Intended Modules (or equivalents)

MA1506	Mathematics II	4 MCs
PC1432	Physics IIE	4 MCs
EG1108	Electrical Engineering	3 MCs
CS1101C	Programming Methodology	4 MCs
XXXXX	GEM / SS	4 MCs
	Total	19 MCs

2007 / 2008 Sem 2 and beyond

After being streamed, I intend to read a total of 122 MCs in 6 semesters. My choice of modules will be based on the recommendations of my course advisers.
